Commanding Starfleet Ships | Managing Crew | Interplanetary Tactical Warfare | MS Excel | Shooting | Diplomacy

Experience

Present – Jul 2265

U.S.S Enterprise NCC-1701

Commanding officer

- Historic five year mission
- Discovery of replicable means of time travel
- Conflicts with the Klingon and Romulan Empires

Jun 2265 – Feb 2259

U.S.S Farragut NCC-1647

Lieutenant Commander and first officer.

Jan 2259 – Dec 2254

U.S.S Farragut NCC-1647

Junior Officer

- Commanding planetary survey parties
- Participation in Klingon war

Nov 2254 – Dec 2252

U.S.S Republic NCC-1371

Cadet

- Nuclear incident handling
- Promotion priority adjustment

Education

Nov 2254 – Jan 2252

Starfleet Academy

Master in Starship Operations

Score: 87/100

Publications

Jul 2260

A Comparative Analysis of Starship Propulsion Systems

This paper compares the efficiency, speed, and safety of various starship propulsion systems, such as warp drives and impulse engines. It also explores the potential for future advancements in propulsion technology.

Projects

Nov 2251 – Oct 2251

Kobayashi Maru Reprogramming

Redesigned the Kobayashi Maru simulation to allow for a no-win scenario bypass, demonstrating creative problem-solving under pressure.

Lead Engineer - Starfleet Academy - Simulation, Systems Programming - Link: starfleet.int/projects/kobayashi-maru

Jun 2266 – Mar 2266

Emergency Warp Core Ejection Protocol

Developed a new emergency protocol for warp core ejection that reduced response time by 40%, later adopted fleet-wide.

Project Lead, Systems Architect - Safety Systems, Warp Engineering
